PUBLICATIONS Peter Borwein

Books:

P. Borwein, *Excursions in Computational and Diophantine Number Theory*, Springer-Verlag, New York, (to appear).

L. Berggren, J. Borwein and P. Borwein, *Pi: A Source Book*, Springer-Verlag, New York, 1997 (second ed 2000).

J. Borwein, P. Borwein, R. Corless, and L. Jörgenson, *The Proceedings of the Organic Mathematics Workshop*, Canadian Math. Soc. Conference Proceedings No 20, 1997.

P. Borwein and T. Erdélyi, *Polynomials and Polynomial Inequalities*, Graduate Texts in Mathematics, nos 161, Springer-Verlag, New York, 1995.

J. Borwein, P. Borwein, R. Corless, and L. Jörgenson, *The Electronic Proceedings of the Organic Mathematics Workshop*, http://www.cecm.sfu.ca/organics/, 1995.

J. Borwein and P. Borwein, *A Dictionary of Real Numbers*, Wadsworth, 1990.

J. Borwein and P. Borwein, *Pi and the AGM - A Study in Analytic Number Theory and Computational Complexity*, Wiley, 1987 (paperback 1998).

Submitted and Ready for Submission:

P. Borwein, P. Lisonek and C. Percival, *Computational investigations of the Prouhet-Tarry-Escott problem.*.

P. Borwein and M. Mossinghoff, *Newman polynomials with prescribed vanishing and integer sets with distinct subset sums.*

P. Borwein and S. Choi, *The Average Norm of Polynomials of Fixed Height.*

P. Borwein and K.G. Hare, *Non-trivial quadratic approximations to zero of a family of cubic Pisot numbers.*

P. Borwein and P. Zhou, *On the irrationality of a multivariate q-logarithm series.*

Accepted Papers:

P. Borwein, C. Pinner and I. Pritsker, *Monic integer Chebyshev problem*, Math Comp (Accepted Sept 2001).

P. Borwein and K.G. Hare, *General forms for minimal spectral values for a class of quadratic Pisot numbers*, Jour. London Math. Soc. (Accepted Oct 2001).

P. Borwein and S. Choi, *Explicit merit factor formulae for Fekete and Turyn Polynomials.*, Trans. Amer. Math. Soc. (Accepted April 2001).

P. Borwein and L. Jörgenson, *Visible structures in number theory*, MAA Monthly (Accepted Dec 2000) Featured in the Math Forum newsletter (Feb 26, 2001.).

P. Borwein and K.G. Hare, *Some computations on the spectra of Pisot and Salem Numbers*, Math. Comp. (Accepted Aug 2000).
